

CONSUMER SAFETY GRAPHICS

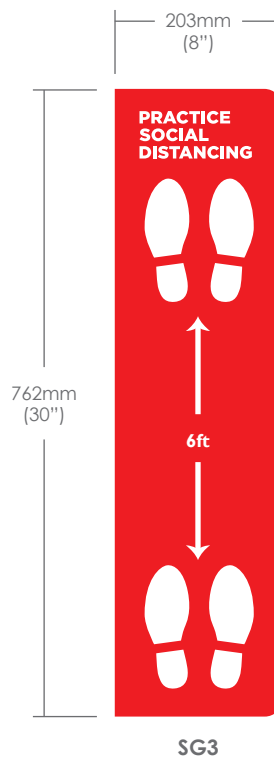

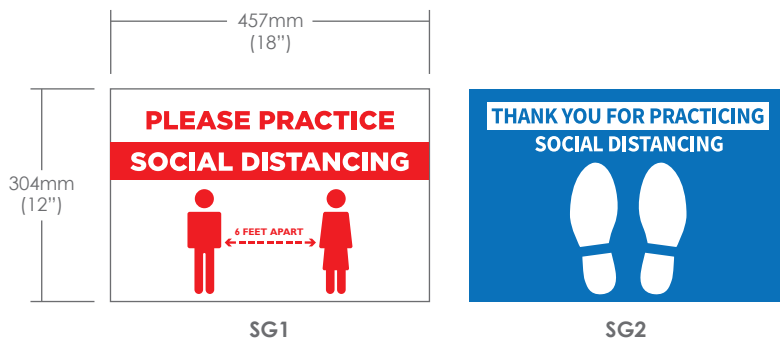

Floor and Aisle Signage

With consumer safety graphics, retailers can address new critical requirements for social distancing in compliance with government guidelines to reinforce measures for health and safety. Floor graphics are durable, easy to apply/remove decals made from 3M special non-slip and non-stick material. Aisle interrupters provide space saving, eye catching, quick communication. Choose from our standard graphics available in 5 colours or contact us for quick custom signage to suit your needs.
